👋 SUMMARY

I am a technology enthusiast and full stack programmer. I love to learn new things and be able to create meaningful applications with state of the art technology. In my free time I love being outdoors, hiking the Alps or learning how to climb.
I am currently working as a Java Developer on a warehouse management system built on the Spring Framework and an Angular frontend.

💪 DEVELOPMENT SKILLS

🖥️ Frontend:	HTML, CSS, SCSS JavaScript and jQuery,Typescript and Angular
🛠️ Backend:	Java and Spring, PHP, NodeJS
🗄️ Database Layer:	SQL with DB2, MySQL, MariaDB
☁️ Infrastructure:	Microsoft Azure, Docker, AWS, Google Firebase
📊 Data Analysis:	R, Python, Tableau, Microsoft Excel
⚙️ Scripting:	Python, NodeJS, Shell for Linux systems

👨‍💻 WORK EXPERIENCE

❄️ UNITED STATES COLD STORAGE, Camden, NJ — February 2019 – Present

Junior Java Developer

- Developing and maintaining code for the company's electronic warehouse management system based on Java EE and the Spring framework.
- Maintaining and enhancing the application's web interface based on Java Server Pages served with Spring MVC and Single Page Angular applications.
- Creating a Python script that allows easy, platform independent setup of the development environment.
- Developing a proof of concept to containerize several applications using Docker in order to enable a continuous development environment and possible deployment to the cloud.

🎓 TEMPLE UNIVERSITY, Philadelphia, PA — August 2018 – May 2019

Azure Technology Consultant, FOX School of Business

- Aiding students with the process of building a set of virtual machines and connecting them through a virtual network with the help of Microsoft's infrastructure as a service offering Azure.
- Facilitate the understanding of networking technology such as DNS servers, Active Directory services, and shared volumes
- Setting up of public web servers and connecting them to machines hosting database management systems.

⌨️ TEAM23, Augsburg, Germany May 2018 – July 2018

Software Development Intern

- Built state of the art front-end applications with the Angular 6 framework.
- Implemented advanced state management capabilities with a ngrx store.
- Leveraged Google's firebase offering to build a real-time backend for an angular application.
- Used Docker to containerize an Angular application enabling machine independent development and distribution.
- Utilized git to track code changes and progress locally and remotely (via gitlab)

🎓 TEMPLE UNIVERSITY, Philadelphia, PA August 2017 – May 2018

Information Technology Assistant, FOX School of Business

- Facilitated teaching of 124 students and helped individuals in need of assistance with course assignments, clarifying instructions and guiding them through problems with WordPress and Salesforce.
- Evaluated 1000+ assignments during semester, communicated information on individual performances to professors and resolved grading disputes with students.
- Managed 500+ online submissions each semester organizing documents and updating grades with storage platform Box.

⌨️ SAP, Walldorf, Germany May 2016 – July 2016

Intern, Sports & Entertainment

- Summarized business unit's financial data using SAP Analytics Platform, prepared reports and briefed supervisor for monthly meetings with COO of Central and Eastern Europe.
- Analyzed CRM data to find potential customers and computed a set of 20+ new target accounts for the internationally operating sales team.
- Conceptualized and implemented industry specific information day for 100+ potential customers in the museum and theatre market collaborating with 2 coworkers to compose itinerary and invitation list.

🎓 EDUCATION

🇺🇸 TEMPLE UNIVERSITY, Fox School of Business, Philadelphia, PA

Bachelor of Business Administration, Graduation: May 2019
Major: Management Information Systems
GPA: 3.98 | Summa Cum Laude, Dean's List, Fall 2015- May 2019

👍 OTHER SKILLS AND LANGUAGES

- German (Fluent)
- XD, Figma, Illustrator
